

The St. Mary's University Department of Engineering presents the

Home Engineering Online Summer Camp

MONDAY, JUNE 29 - THURSDAY, JULY 2, 2020
9 A.M. TO 4 P.M. (WITH BREAKS)
ONLINE

COST: \$200 PER STUDENT (LIMITED TO 20 CAMPERS)
DEADLINE FOR APPLICATIONS: FRIDAY, JUNE 5

St. Mary's University is offering a four-day virtual camp for seventh- through ninth-graders that will teach them the basics behind engineering.

Participants will present their engineering concepts to the class and partake in virtual competitions. Campers will learn basic engineering concepts in computer-aided design and 3D printers, structural engineering, fluid dynamics, electrical engineering and thermodynamics.

Campers will need a personal computer or laptop with internet access able to run Zoom and access to email to get links and files.

To apply, visit www.stmarytx.edu/home-engineering-camp.
